WORLD TRAVEL EXCHANGE

Now E Banc UK members can access over 400 hotels and restaurants throughout Europe to spend E Banc trade Pounds and Euros on business and holidays. At 100% Trade, that means you don't have to stretch your personal or business cash, to enjoy some time away or to keep in touch with your European customers and business contacts.

E Banc UK and E Banc Netherlands have joined a group of reputable trade exchange organisations, which work together to provide all their members with the opportunity to spend their E Banc Pounds and Euros on business or personal travel in Europe and in the long term World wide.

Member Hotels and Restaurants simply agree to participate and to make their surplus rooms and tables available to E Banc members. Our Members get first class accommodation and dining while the Hotels and restaurants gain additional E Pounds or E Euros in addition to their normal takings. Result – everyone wins!

FIND OUT MORE AND ORGANISE YOUR TRAVEL ACCOMMODATION OR MEALS WITH E BANC.

If you would like to organise accommodation meals and travel including hire cars, simply ring our local call line 087 00 114 577. This accesses our accommodation specialists in Europe, who will assist you in setting up your holiday or business trip using E Banc Pounds and Euros. This is no problem for E Banc as exchange rates are simply part of the international exchange system.

If you prefer simply e-mail your trip details to nederland@ebanctrade.com. Our friendly staff will then contact you with the results.

Remember that Hotels are only offering excess rooms and dining facilities, for trade, so peak periods can be difficult. However if you are happy to avoid the rush periods you will be rewarded with the best that money can buy and first class accommodation and service.

PROPERTY DEVELOPMENT

Att: PROPERTY DEVELOPERS / REAL ESTATE AGENTS / INVESTORS

We have Millions to invest in the UK!

According to some experts the property market is now moving from a Seller's to a Buyer's market. The pace has slowed and properties that were previously sold in days now take months.

E Banc Australia have been able to overcome the problem by offering their members the opportunity to buy residential and business properties using E Banc Australian dollars for up to 33% of the purchase price.

This assists Property Developers by giving them access to a favourably inclined market segment, at no cost, while allowing the other members to buy property on very favourable terms.

The E Banc dollars are "lent" to the purchasers for 5 years for a fee of 5% of the total sum and can be paid back as and when the buyer accumulates excess E Banc Pounds. After the five year period the funds are either repaid in cash or rolled over for a further 5 years at 5%. (YES..... that is 1% per year!)

Please look at the E Banc Website www.ebanctrade.com and click on property to see how the system works.

E Banc UK has been allocated a Multi Million Pound Fund for Property funding in the UK.

So if you are involved in property development and experiencing or anticipating a downturn in the industry, E Banc UK could give you a strategic advantage versus your competitors.

Please contact the UK Master Licensee for the UK, Ian Godbold for a confidential discussion, by e-mailing him on ian.g@ebanctrade.com. He will explain how the system benefits both yourself and your investors, while funding future properties ... no matter how unfavourable the market conditions are!
