**Welcome to our first issue as Empire Trade Exchange.** We are keen to prove to you that the changes to your exchange will only see if growing stronger with increased trading, rising membership numbers and greater product availability with larger trade percentages.

We realise this change may have come as a surprise to many of our members. The short notice was not from lack of consideration for our members, after all, *without you, there is no exchange*. We did not want to say anything until we were 100% sure that the changes were going to take place, and when they did, it was an extremely fast process. We hope you understand.

Our International offices still operate under the E Banc Trade exchange name (Malaysia is E Planet Trade), however our international trading is still as simple as it always was. Our International chequebooks can be used in any country and are available from each country's head office.

Please be assured that all your trade dollars are safe with Empire Trade and until we have our new stationery and cheque books printed, all E Banc Trade cheques will continue to be accepted. New chequebooks will be mailed to you once available.

Please ensure that all future cheques are made out to Empire Trade Exchange. Our new bank account for direct deposits is with

**ANZ Bank**  
**BSB**                    **014 616**  
**Account number** **4932 32389**

We all look forward to the exciting future ahead of us and are keen to allay any fears of concerns you may have. Please email us with any queries to [info@empireXchange.com](mailto:info@empireXchange.com).

***Merry Christmas from the team at Empire Trade Exchange***

A message from our new Director

Hello Empire Traders,

My name is Chris Sun and I am the new director of Empire Trade Exchange formally known as E Banc Trade. I am writing you this letter to tell you about myself and my vision for our wonderful trade exchange.

Four years ago I worked for E Banc Trade as the Sponsorship Coordinator; a lot of you would remember me. Yes that's Right; I was the one who assisted in helping you guys get sponsorship and support for your sports clubs. I travelled and did the seminars and was always the one telling the jokes!! Never serious.

When I left E Banc to start my own venture a lot of members and sponsorships wrote me sad letters saying that it would never be the same without me, as I was always excited about helping you, your business or your club. I thank you guys for those kind words 4 years ago - they helped me to move onto to bigger and better things. Some of us are still in contact today.

When I left E Banc Trade I started a company call VM Motorcycles, known today as Pitboss Empire. I created the biggest mini bike name and company in Australia in the last 4 years. I always believed that I had the potential to do something on my own and I guess I was not wrong. Many people in E Banc (members) helped me at the start by purchasing bikes from me; it is because of these members that I have succeeded today. I thank you guys so much as well.

I then started a company called ECC (Empire Construction Consultants) [www.eccaustralia.com](http://www.eccaustralia.com), as I remembered what it was like for a lot of members and sponsorships saying how hard it was to spend their trade dollars (E Banc or Barter Card). ECC was started to assist with the building of property and developments. This company now has over \$150 million worth of invoices out to trade exchange members. So once again I found a way to assist the members. I guess my knowledge of the Trade System has helped a lot. I designed a system that has genuine quotes with new builders (never been in Trade) and tradesmen that can match cash quotes from other non trade members and then put a trade component in it from 15% to 25%, if not more. Well we can only hope more. Ha-ha - sorry amused myself there! We can say we were very excited by the member's response when we started and it is powering along trying to help you guys everyday.

I was never going to return to E Banc as I was happy with the direction my life was heading, but then one day I got a call about purchasing the company that I had worked for, for many years of my life. I was told that E Banc needed new direction and passion and that I and my partners would be perfect to buy E Banc. We first bought the agency for CHINA as we do lots of business there now and we own our own factories in China (China is still being set up). Then we moved and bought E Banc Trade International. As you know we have changed the name to Empire Trade Exchange. I will explain the reason for the name change later on.

I was worried at the start about buying E Banc Trade as I never wanted to bite off more then I could chew. But let's face it, I obviously love a challenge. E Banc Trade, now known as Empire Trade Exchange, now has a bigger and better future.

This is my plan. I hope you like it (I thought of this stuff when I worked there and even when I left, so I guess I think like a member now)

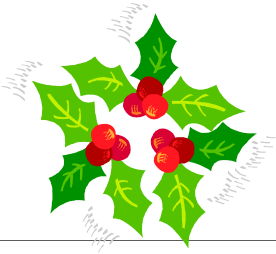

**1.** We set up an ONLINE CATALOGUE with many products from Asia and overseas; e.g. Electrical, Outdoor Furniture, Indoor Furniture, Linen (towels, sheets, etc), Toys for Kids - oh and for the big kids: Motor Vehicles, Stationary (pens, paper etc), House hold items - I think you get the drift.

I will email out a sample list soon for your viewing, and your feedback would be awesome. OH yeah, you would be able to advertise in the catalogue as well if you like. It will be full colour and emailed out to the members world wide once a month.

**2.** We open up a revised auction site - minimum 50/50. That way you guys can move your products online with trade % easier. There will be a 2.5% cash fee for all successful auctions over \$500 cash, below no fees (e.g. for a \$500 cash and \$500 trade sale, you would only pay the auction fee on the cash component). Members could also sell on 100% trade on the auction site as well but please remember we want stuff to sell for a real price not \$50,000 for a DATSUN STANZA if you get my drift; although you can't beat a DATTO - ha ha.

**3.** We would also redo all warehouses as some currently look like op shops gone bad. Not being mean guys but as members you want to be able to spend your trade dollars (that you worked hard to earn) on decent products, not other people's unwanted items. They're my thought anyways. So what we could do is start a mass sale on a lot of the Sunshine Coast warehouse stuff for 75% upwards to clear before Xmas. We already have a big sale day happening this weekend on Saturday morning. Then next year we can start importing new and improved products, and selling from the warehouse and off the catalogues.

**CONTINUED.....**

4. I would also set up my own finance group like I have with my motorcycle shops. It is pretty simple really. Empire Trade Exchange would finance you the cash component to buy products (not houses) from the warehouse. A bit like this: NO INTEREST EVER! Sound good? This is how it works:

Say the product is \$5000 50/50. You pay the trade dollar amount of \$2500 and we finance the \$2500 cash. It would be financed over 6, 8 or 12 months, by direct debited fortnightly payments from your account. The direct debit is done by a company called Payscale (so not by Empire Trade Exchange). We would charge \$2.50 per week account keeping fees. I have done this in my Motorcycle Shops now for over 2 years and it is very successful, so there is no reason why it can't work here. I would love your feedback on this as well. This system could work for cars etc. down the track. There is one catch: fees on the trade would have to be paid upfront for the purchase. OH did I mention NO INTEREST EITHER!

5. To do all of this I will be bringing in an \$11 per month administration fee - Empire Trade Exchange needs to make money as well. So we are happy to give you as many areas to spend your trade dollars as possible we just ask in return that you pay a monthly fee. This fee will start in January 2007 and will be added to your monthly transaction fees.

6. The cash transaction fee will remain the same. Other trade exchanges charge fees when you receive and when you spend, THEN also charge you account keeping fees. What's up with that?? You guys are paying fees all the time that way. That's not cool.

7. I will be speaking to all staff and Agents around Australia as I have had a lot of feedback from members complaining about lack of support. This is NOT ON and I will endeavour to fix this problem in the New Year. If you feel that your Agent is not treating you right, then please email head office and I will sort it out personally. You joined us hoping to get new business, and support in spending the trade when you receive it. SO there should be no problem. We took your money easy enough; we should be helping you any way we can. That's what you paid for!!

8. I have gone through HEAD OFFICE and changed the way some people work up here. I don't believe in BS and will not tolerate my good members receiving anything but the best service that they deserve, and getting answers when questions are asked. I am not perfect but will do my best to be perfect and I want my staff to do the same. If they can't help you with your query, ask to put you onto some one who can. You put faith in this trade exchange so you will notice a lot of changes in the way you are treated from now on and the frequency of contact - from Head office through to the Agents.

9. As you may have heard we have ceased with the MY SERVICES programmes. No, this is not permanent however we have to get it perfect before it starts again. Members who have been affected by the My Services closure would have already been contacted by Empire staff (if you haven't, rest assured we have tried your number several times) so hopefully we will have this sorted real soon and we can all move on with trading as normal. If you have any questions or concerns about My Services please ring head office and they will assist you, no problems at all.

10. Finally the name change from E BANC TRADE to EMPIRE TRADE EXCHANGE: as a lot of you would know there have been problems in the past with this FUEL BANC and other personal issues of the previous owner. I did not want to be branded by the same problems. I wanted to start fresh: you would not want your company tarnished by some else's poor judgement. I wanted to take over knowing we were all moving in a new direction and this was the first step - change the name and make sure I give the members a good reason to stay on and trust the trade system. I believe that Empire Trade Exchange is a real boost to the barter system. Sure the other Exchanges will copy what I am doing. That is inevitable. However I started the mini bike trend and look at it now. They all copied me so I guess you could call me a bit of a leader in new trends, ha ha.

Please BEWARE. Since the name change there are other smaller trade groups trying to suck you in, claiming all sorts of rubbish. Why they are doing this is beyond me but anyway it's your call if you believe them. They don't know me or my partners at all so I am not stressed - I just don't want to see you, the GOOD members, fed a lot of lies. If you are not sure please just ask. I have nothing to hide. I am sure ASIC did many checks on me when I took over; actually I know they did, and in their eyes I am a good business man. I am 31 and full of life and enthusiasm and keen to help Empire Trade Exchange grow. I guess being young has its advantages huh? We just keep going. But hey, maybe that's what trade exchanges and some businesses need - EXCITEMENT!! So please watch these people and be careful guys. This is your business and family they are playing with.

Well guys, that's a bit about me and my plans. I will write one day soon about my partners for you so you can see what they are about as well. Oh hang on, we have the same vision except I am 20 years younger (sorry boys had to tell them)! I know throughout this letter I have told some silly stuff but that's me and I didn't want it changed one bit. I run all my companies just the way I am everyday and I think you deserve to know me for me not some corporate robot.

Regards

Chris Sun—Director

**Makeup** Nicole is a qualified film/television makeup artist and has completed Diploma of Cinemagraphic Makeup at The Frampton Institute on the Gold Coast. She has experience in special effects makeup, fundamental ageing, manufacturing and applying of prosthetics and styling facial hair. She offers a mobile make-up service for modelling and special occasions with before and after shots available on request.

**Artwork** An aspiring young artist, Nicole takes her inspiration from the beauty and lifestyle of tropical Far North Qld. The majority of her works are post-modern abstracts, with strong, bold colours and important elements in each piece. Her artwork can be found all over the world and throughout Australia. Nicole is also able to custom make artwork to your own specifications and ideas if desired. Many pieces can be viewed on her website.
